

ASSET MANAGEMENT POLICY

The property and contents of our facilities are a key component of our business as poorly maintained facilities would adversely affect our operation.

Self financing schemes allied to growth and customer service development will continue to be investigated and implemented where appropriate. The initial finance required in advance to fund the project(s) will be bank loan repayment scheme or leasing agreement(s).

Additional resources outwith the agreed revenue and capital budgets will require separate funding arrangements on the grounds of priority and agreed on the grounds of imminent danger of the likelihood of closure. This policy has stood the centre in good stead the past numbers of years and will continue to use this process as the base for our asset's.
